Choose Tracking Method

Select how you'll record your settlement's evolution:

1. **Map**: Draw the linear city stretched along the twilight belt; add structures, farms, wind turbines
2. **Timeline**: Chronicle the settlement's story cycle by cycle with dates and events
3. **Character Web**: Focus on emerging individuals and their relationships
4. **Combined Approach**: Use multiple methods as needed

Record this somewhere all players can see and modify.

Revision #45
