

Choose Tracking Method

Select how you'll record your settlement's evolution:

1. **Map** — Draw the linear city stretched along the twilight belt; add structures, farms, wind turbines
2. **Timeline** — Chronicle the settlement's story cycle by cycle with dates and events
3. **Character Web** — Focus on emerging individuals and their relationships
4. **Combined Approach** — Use multiple methods as needed

Record this somewhere all players can see and modify.

Revision #22
