

# Managing Multiple Storylines

**Main Plot:** Overarching campaign goal (stop rogue faction, decode ancient mystery, survive mega-storm season)

**Subplot A:** Character-driven personal goal (find lost family, master psychic ability, build reputation)

**Subplot B:** Faction relationship (earn trust, expose corruption, mediate conflict)

**Environmental Thread:** Ongoing Duskanan challenge (water shortage, predator migration, geothermal instability)

**Rotate focus each session:** Session 1 advances main plot, Session 2 focuses on subplot A, Session 3 environmental crisis, etc. Let complications organically connect threads.
