Sources and Status

A statement that repeats canon carries the mark of its source.

Mark	Source
(C03)	Compendium, with the number of the chapter
(G)	Duskaran Gazetteer
(H)	Duskaran Language Handbook
(W)	Weatherworking Guilds, in worldbuilding/
(N)	*The Weight of Wind*: chapters 1 to 3 and the setting file

A statement with no mark is new in this document. Most new statements are small and follow from canon: the wind always comes from one side, so the door is on the other. The author confirmed all of them, and they are canon. The chapter Decisions lists the ones that bind other texts.

A detail marked (N) was written for one town, Liko-Luŋga, and one guild house. This document uses such details as examples of the heartland.
